### *General*

OptiFunder Corp is the sole owner of the information collected on this site. We will not sell, share, or rent this information to others in ways different from what is disclosed in this statement. OptiFunder Corp collects information from our users at several different points on our website. We use our best efforts to respect and protect the privacy of our online visitors.

We use IP addresses to analyze trends, administer the site, track users' movement, and gather broad demographic information for aggregate use. IP addresses are not linked to personally identifiable information. We only gather personally identifiable data (such as names, addresses, zip/postal codes, e-mail addresses, etc.) that are voluntarily submitted by a visitor, and we only use such data for the purpose of responding to requests for contact or information.

Web site visitor information is used for internal purposes only and will not be sold to third parties. E-mail addresses and postal addresses of visitors are never sold or exchanged. If you supply us with your email or postal address on-line, you may receive correspondence from us with information on upcoming events or products and services. If you do not wish to receive such correspondence, please let us know by contacting us at [support@optifunder.com](mailto:support@optifunder.com).

### *Security*

This website takes all reasonably available precautions to protect our users' information. When users submit sensitive information via the website, this information is protected both online and off-line.

Authorized users of the OptiFunder application who elect to log in from this site are redirected to our secure portal in a separate window, where we use high-grade encryption software and the https security protocol to communicate with your browser software. As a result, it is extremely difficult for anyone to intercept the login information you enter. While on a secure page, the lock icon will appear. If you do not see this icon, refresh and log in again. Users who are redirected to the secure portal cannot return to the public site using reverse navigation.

Only employees who need the information to perform a specific job are granted access to personally identifiable information. All employees are kept up to date on our security and privacy practices. If you have any questions about the security of our website, you can email [support@optifunder.com](mailto:support@optifunder.com).

### *Cookies*

A cookie is a temporary piece of data stored on the user's hard drive and can be removed by the user in their browser's settings. Usage of a cookie is in no way linked to any personally identifiable information while on our site. We use cookies to determine whether a user has installed plugins that allow us to enhance users experience of our site. If a user rejects the cookie, they may still use our site. The only drawback to this is that the user may be limited in some areas of our site.
